

MANU

FOR IMMEDIATE RELEASE

About: Manu enters the international market of interior accessories and lifestyle products with the Kangaroo and Deck Series.

Eindhoven, The Netherlands – January, 2018

Manu offers a new range of home accessories to let customers organize and charge their mobile devices while enjoying the comfort of a fashionable interior item.

“We are proud to present our new products, Kangaroo and Deck to an international audience during Maison & Objet in Paris in January 2018. Our mission is to maximize the usability of any mobile device. With our Kangaroo and Deck series we offer our customers a dedicated safe haven for their everyday essential devices, keeping them fully charged and conveniently at hand. Store, organize and charge with style”, explains Hendrik Nagel – Creative Director at Manu.

Combining great design with ideal usability

Our senses are continually stimulated by sound, light, and other input from the mobile devices in our homes, at work, and while we're on the move. Manu embraces technology and aims to merge it seamlessly with everyday life, strengthening the experience users have with their smart devices and improving their surroundings with beautiful and well-designed products.

Manu Kangaroo Series

Kangaroo is the ideal storage compartment, organizer and charging station in one. Perfectly located, right where you need it to be.

Manu's designers took their inspiration from vintage magazine racks, enhancing this concept to fit a wide range of smart devices. The Kangaroo comes in two versions: the Kangaroo Couch and Kangaroo Stand, fulfilling the need to charge and organize around the couch and living room area.

Enjoy easy access to your charger cables with the cable guides and neat compartments for your laptop, tablet, smartphone and remote control. The Kangaroo series even contains a handy pocket to fit your favourite magazines.

Wireless charging – Ready for iPhone 8 and iPhone X

Manu Deck Series

Keep your smartphone and personal belongings, like your keys and wallet, organized. The Manu Deck series offers a beautiful home for your smartphone and can charge multiple USB-powered devices. The Deck and Lumi Deck are a sight to behold and will fit in the most stylish home interior. Both are made of high quality materials with an eye for the smallest details. A wireless charging option can be added to get the most out of your experience. The Lumi Deck's Lamp emits a warm and pleasant glow, making it ideal to put on your night stand.
