

1. Guide the USB cable through the buttonhole to the back of the Kangaroo

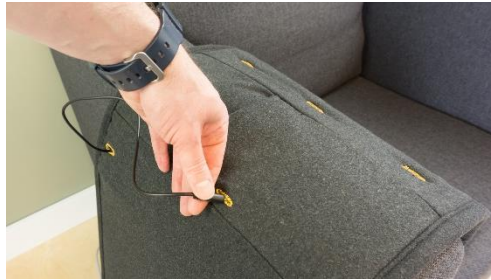

2. Insert the wireless charger with the black part facing down.

(when the Kangaroo is installed the charger will end up with the black part facing up ;-)

3. Guide the USB cable through the next buttonhole

4. Insert the connector into the wireless charger and install the Kangaroo to the armrest

5. Guide the USB cable through the tube towards the USB charging station

6. Insert the USB cable into the USB charging station

7. When the Kangaroo is fully installed and the power cable is plugged in you are ready to charge

8. Place your qi enabled device onto the MANU logo and check if battery status switches to charging
